Customer Reviews

This is a great book. It's sturdy enough that it won't be easily ruined, and the colors are bright and attractive to my easily distracted kiddo. They also picked a good variety of words. I'm including a pic of the inside, as I wished there was one when I was originally looking at this.

My 2 year old likes this book a lot. I like that the pictures are realistic (e.g., the picture of a phone is an actual phone, not a toy phone). We don't speak Hebrew, so I can't comment on that aspect of the book, but we find it useful just helping our toddler increase his English vocabulary.

One of my favorite books when I was in the preschool age range was a gigantic book of words that had the word for each item next to it within drawings. But not every child can get through the clutter of other images to select the specific one before learning to read. Which is why I really liked the way My First Words at HOME has a pair of facing pages for different rooms within the home where the items are situated on a white background. My toddler could point to nearly every item I named within just a few (separate) readings of this book. She enjoyed the brightly colored photos and I liked that

she was learning new words for some items we don't have in our home. This was our second book from Star Bright Books and we continue to enjoy the quality of their work. If you're looking for some nice basic concept board books for your little one I highly recommend anything by Star Bright but specifically this one. Notes: Review Copy received via NetGalley.

Our little one loves this book engaging and a chance to help her learn all at once.
