The Night Fairy

Synopsis

From 2008 Newbery Medalist Laura Amy Schlitz comes an exhilarating new adventure and a thoroughly original fairy who is a true force of nature. What would happen to a fairy if she lost her wings and could no longer fly? Flory, a young night fairy no taller than an acorn and still becoming accustomed to her wings as beautiful as those of a luna moth is about to find out. What she discovers is that the world is very big and very dangerous. But Flory is fierce and willing to do whatever it takes to survive. If that means telling others what to do like Skuggle, a squirrel ruled by his stomach so be it. Not every creature, however, is as willing to bend to Flory's demands. Newbery Medal winner Laura Amy Schlitz and world-renowned illustrator and miniaturist Angela Barrett venture into the realm of the illustrated classic a classic entirely and exquisitely of their making, and a magnificent adventure.

Customer Reviews

Why do children, most notably little girls, like fairies? I think we can understand the princess allure. Princesses get to wear frilly clothes, sparkles, and absolutely everyone has to obey them. So why are fairies also popular? Laura Amy Schlitz has a theory. Princesses wear corsets. Fairies don't.

Princesses have responsibilities. Fairies don't. Princesses spend a lot of time inside castles. Fairies spend a lot of time outdoors. If the romance of the princess is that you get to be above the rough and tumble everyday realities of life, the romance of the fairy is that you get to be in the thick of it. Flying, running, dodging, hiding, and getting to be in nature like no other creature. Now Ms. Schlitz has created a fairy story for her future "wild women of America". On the surface, The Night Fairy looks like a beautiful object d'art. Wriggle inside its pages, though, and you're reading the story about the kind of creature who fights monsters one minute, and sews herself the most delicate of flower blossom dresses the next. Beauty and excitement all in one slim little package."Flory was a night fairy." Was, I'm afraid. Like others of her kind she was perfectly content to flit about at night. Unfortunately Flory was born with lovely luminous wings so pretty that one night a bat crunches them by mistake, and Flory finds herself wingless. Alone and hurt in a strange garden, she becomes determined to be a day fairy and sets about taking care of herself. She befriends a hungry squirrel and the two help one another out. She makes herself a home in a birdhouse In the midst of all of this, however, she still longs to fly again. One day she sees a hummingbird and becomes determined to tame and ride it.
