The Tapper Twins Tear Up New York

Synopsis

In the follow up to the New York Times bestseller *The Tapper Twins Go to War*, the twins' school scavenger hunt turns into a "madcap, uproarious romp around the Big Apple" full of "action, hilarity, and mayhem" (School Library Journal). Geoff Rodkey delivers another pitch-perfect ultra-modern comedy told as oral history with texts, screenshots and smartphone photos. When Claudia initiates a citywide scavenger hunt to raise money for charity, it's not just the twins' opposing teams that run riot. With the whole school racing to trade in sights seen for points to score front row tickets at Madison Square Garden, they may not get to the finish line with their dignity-and social lives-intact!

Customer Reviews

All of the Trapper Twins books are funny and fly off my school library shelf! Geoff Rodkey is a brilliant author that I had the pleasure to meet during one of his presentations. Mr. Rodkey is an author all elementary schools should welcome! My students can't wait for more!

The Tapper Twins Tear Up New York is a great novel for children ages 9-13. It is very relatable and includes text messages and actual land marks in New York City. I've enjoyed all of Rodkey's novels and I can't wait for the next to be released!

If you loved the Tapper Twins going to war with each other, you'll love them tearing up New York. In this second installment, Claudia and Reese are on opposing teams for a school sponsored scavenger hunt. Predictably, the idea is golden as a fundraising idea, but the results are much less so and the twins' parents get caught up in the mess. Having read the previous book may actually increase enjoyment as there isn't a lot of introduction to the cast but you don't have to have devoured the first to enjoy this second outing. I kind of want to do my own crazy scavenger hunt after reading this book. It's as wild and crazy as you might expect when the twins are involved.

The Tapper Twins Tear Up New York is the second in the Tapper Twins series yet it is just as entertaining, if not more so, than the first. Any Tween and Middle Schooler, or those who have them in their lives, would recognize those they know in the diverse characters that Geoff Rodkey brings to life in the series. Although no angels are present by any means among them, (including the Twins's™ parents), the stories are uplifting and good manifests itself in a non-preachy way that will amuse readers of all ages. I highly recommend these books as gifts to those fifth-grade and up. (This grandmother laughs out loud reading them!)

I liked it, no, LOVED IT! Amazing book, I recommend this to anybody who likes humor, adventure, and mystery! REMEMBER TO READ TAPPER TWINS GO TO WAR!!!!!!!!!!!!!!(also amazing!)

The books are small in my opinion but my 9 yr old boy loves all of the Taper Twin books so I'm basing my review on that. He reads them without being told to read.
