The Ultimate Book Of Randomly Awesome Facts

Synopsis

Hundreds of lists--thousands of facts! There's a new online sensibility, and kids are encountering it every day. It's the "flipped" world of facts--facts presented as instant, cool, unexpected. And in this world of BuzzFeed and YouTube, a big focus of the new factual sensibility is lists. **WHAT YOU REALLY NEED TO KNOW** is a book of best-ever lists, with a completely different look and feel to reflect today's digital world. The lists cover topics from science and technology to history and pop culture, and every one of them has a hook. The information appears random, like it's from an Internet search. But in-depth research and expert writing mean that the book is filled with the most important, most engaging, most up-to-the-minute facts. This is reference reinvented, with supermodern lists, and a supermodern visual presentation to match.

Customer Reviews

My boy loves to read, so I buy him almost every book he asks for that we can borrow from the library. He typically blows through these books in a single sitting. They are very well written with nice pictures.

Bought this book for my 3rd grade son when I found out his class wouldn't stop fighting over their

one copy. It is a interesting book with a bunch of short facts. It works good for the ADHD type because the paragraphs are long enough to peek his interest but not so long as to lose him. It also good for adults. Found a bunch of good conversations starters that I wouldn't have even thought of before.

My niece, 10 years old, went crazy over this book!

well done and interesting for all ages

My nine year old son loves this book
