Customer Reviews

It's not just adorable, the recipes are actually ones I look forward to trying! (â€¦â€” â€”j â€”)â™™ Divided into sections - 'Food', 'Food to go with Food', 'Sweet Food for after food', and 'Not Food'. There are even instructions on how to create an Onigiri Puppycat! \ (â€” â€”j â€”)/ I think it would make a great gift for someone you know is a fan of the show. I did not receive this item free of charge, or at a discounted price, in exchange for a review. I paid for this item with my very own husband's money. (â€•â€—â€•â€)

This is an adorable cookbook! Recipes are varied and seem within the abilities of most beginning cooks. This would be fun to use in teaching kids how to work some magic in the kitchen. Have already found a couple of recipes I will be making in the next couple of days!

Don't get me wrong, I love me some Bee and Puppycat but Many of the recipes didn't feel truly like

Bee and Puppycat recipes but the art was good and I would make many of these recipes. I hoped they would have better desserts since the desserts she draws are AMAZING, but I mean, chocolate cherry tomatoes? which was described as "edible and somewhat tasty" which doesn't really entice me to want to make it. I enjoyed it overall but was a bit disappointed by some of the content, and although they did have substitutes for some of the hard to find ingredients, other recipes did not. one of the recipes required a Taiyaki pan which isn't very common in the US. Most entries were by fans and a few by people that worked on bee and Puppycat with no recipes or input by Natasha. it would have been a nice touch to add input from the characters or even adding stories like "Deckard had made me this awesome dish for me and Puppycat last week..." or if they had tried to make recipes from what they have shown on the show and in the comics like those burgers from food farmer. It was nice however to get recipes with eggplants as well as cardamom. I enjoyed the Puppycat ongiri, maybe they could have added more character-themed food like a dessert with a pink icing or fondant bow on it or making a cake that looks similar to the cake on the cover (which okay may be too complicated, maybe a cupcake version?). Expect most of the recipes to serve 4-8 people. Sorry if this is too nitpicky

This cookbook is the absolute cutest. I wasn't sure if I was going to get mostly art, or kiddie recipes, or what - but what I got were easy to follow recipes (We did the pancakes one that night) with full illustrations on every page.

I see I'm not the only one with page issues, thankfully mine is just one page. Still kinda disappointed about the page because I'm weird about imperfections like this..

My cookbook arrived looking like it was opened and laid under something heavy aka the binding is shot. For me the cookbook loses the fun of buying this expensive book when theres added details like "I made this recipe that inspired me from bee and puppycat" I'd rather it just be cute pictures and recipes only with the fun stuff in the back. I think the price is too high for what it is. Cute illustrations though.

The book is adorable and wonderful, but most of the pages in the copy I received were bent and folded making a brand new book look not as great. This was meant to be a gift and I do not have the heart to gift it in such a state. Upside, now I have a copy, down side it looks janky.
