Customer Reviews

Bought it to give to a friend. I already have it and knew it was a great read. Dr. Phillips was an excellent writer. Some are gifted preachers but cannot write and others are great writers but not as enjoyable to listen to in person. He was a blessing to hear as well as read after.

This is a wonderful representative of the many volumes from Dr. Phillips, who is a Baptist who began his ministry as an unassuming radio teacher! Even my Pastor likes him! I believe I have his entire collection...

This is the first one of John Phillips Commentaries I read. I liked it so much for his insight into scripture and his ease of reading style. I can honestly say I have a greater understanding of one of the most difficult books in the N.T. than before I read it. Mr Phillips is very obviously a true bible scholar and I greatly appreciate his work. I have and will continue to recommend his books to friends. Buddy Wilson

Phillips is the standard in Bible commentaries in that he consistently gives a biblical perspective in an easy to understand format.

John Phillips does a phenomenal job with this book. It's written in easy-to-understand language, as it applies significance to the scriptures. Exploring Hebrews takes a complicated writing and transforms it into an easy read. Often I marveled at the poetic style of Phillip's writing as he made the scriptures come alive. For anyone interested in a better understanding of the book of Hebrews, this is a must read!

I did enjoy this book. We are having a bible study on Wednesday night in the book of Hebrew and this book has been very helpful. Thank you!

Beautifully written. Well organized Highly informative. I want the whole set -- every book of the Bible! The perfect study companion. :)

This is an excellent commentary on Hebrews. It is easy to read, but still has depth that a serious Bible student can appreciate.
