# I Wonder Why Volcanoes Blow Their Tops: And Other Questions About Natural Disasters

## Synopsis

This highly popular and long-running series has been revamped for a new generation of readers, with a clean, crisp redesign and colourful covers. The series explores questions that young readers ask about the world around them in an unrivalled child-friendly style. The conversational format is perfect for delivering solid information in a natural, amusing and imaginative way. Why are twisters so dangerous? What makes floods happen in a flash? What was the Dust Bowl? How big can waves get? Find out the answers to these and many more questions about volcanoes, tsunamis, earthquakes, and extreme weather. *I Wonder Why Volcanoes Blow Their Tops* by Rosie Greenwood offers a wealth of information is backed up with stunning, high-quality artwork, fun facts, and lively cartoons.

Grade Level: Kindergarten - 3

## Customer Reviews

My 5 year old loves the I wonder books. They give a lot of information in an easy to read format. My husband and I have even learned things from them. Great for a kid with lots of questions who loves information.

*I Wonder Why Volcanoes Blow Their Tops: and Other Questions About Natural Disasters* Good pictures, short bits of information just right for a 4 year old or even older. My boy is fascinated with

natural disasters so this is right up his alley. We already had several books on the subject, but this was a nice addition. Not too wordy or scientific, but also does not talk down to a bright child.

Bought this as a gift for my nephew. He sat right down and started reading it. According to his mom. He has read it a couple of times. He is a first grader who enjoys books
