Well what can I say. My grandson(3yrs) is a huge tractor and construction equipment fan. This sticker book hits into his tractor and farm equipment interests perfectly. In fact he loves John Deere green so much I'm expecting him to bleed green when he gets older. This is a nicely done sticker book and is age appropriate for 3-6 yr olds. Not too long and not too short....just the right length.

I gave this book to my 2 1/2 year old, and wow did he love it. He loves John Deere! He didnt really care about the part without the stickers. He decorated his door with all the tractor and animal stickers. The stickers seemed to rip really easy, but I guess what stickers don't. I wish there had

been more stickers, but still I think a decent value. I will be buying the other Ultimate Sticker Books for my son.

My son loved this sticker book, however, not all stickers have a place to go, and the child needs to be able to read to do the activity alone. He's 2 1/2, so I had to show him where all the stickers went. Nevertheless, he loved it; that's all that matters:)

Bought for my 5 yr. old grandson. He loves tractors and has a number of them along with trucks and trailers. He has quite a few sticker books where he saves all his favorites. I am sure he would recommend this book to other interested boys.

I got this for my 7 year old son. he loves tractors. theres not a lot of pages in the book like maybe 4 pages for the stickers to go and 4 pages of stickers that you don't use all of them. theres a lot of stickers left over that my son put on this big barn. but he loves it.

My nephew is 2.5 and loves tractors. We bought this as a surprise for him to add to his collection of tractor books. He loved it! I do believe that an older child would enjoy it as well because of the many realistic tractors pictured.

The reviews about this being not many pages are SPOT ON but even after reading them I was surprised how few pages there were about 1/2 the pages are stickers that you stick into the other 1/2 of the pages. By the time you are done, you maybe have a 4 to 6 page "book". Nevertheless, for a 3 yr old who *studies* tractors, and especially green ones, he likes this book.

It is hard to find John Deere brand sticker books on the market. I bought this as a gift for my 3 year old cousin that is obsessed with anything John Deere. This book is very colorful and has so many different types of tractors that will facinate any John Deere Lover. I am a big fan of DK Publishing Sticker books. Most of the sticker books I own from DK are pretty thick and has a lot of content. This one was smaller than anticipated. It is still a great sticker book and a child that likes tractors will enjoy this book.
