Customer Reviews

I read this series of books to my fifth grade social studies students. The books contain gruesome and funny facts that the kids love, but there is a lot of important information to supplement whatever American History unit we study. I recommend all the books highly.

This series is the only series that has gotten my niece to read. She hates reading, or I should say, hated reading until this books. I particularly like this book because it is quite effective in teaching children about the nature of medicine in the civil war era.

Mostly 5th grade level and up. My daughter enjoyed reading. Her class is buying most of these series of books since it makes learning fun.

Very well written/illustrated.

My students enjoy this book.

:-)
