Customer Reviews

This book is very well written and is not overly technical. It would be as beneficial to a lay person as it would be for a seminary student. There is plenty of meat in this book for those wanted to expand their knowledge of Christian Apologetics.

DR. GEISLER IS THE MASTER OF TODAY'S APOLOGISTS. HE DESERVES -- & I BELIEVE HE HAS --THE ULTIMATE RESPECT IN HIS FIELD. HE MAKES DEEP AND INTRICATE THOUGHTS AND ARGUMENTS UNDERSTANDABLE TO BEGINNING STUDENTS. EVERYONE FROM THE MOST DEVOUT CHRISTIAN SCHOLAR TO THE MOST HARDENED ATHEIST SHOULD READ THIS.

Dr. Geisler's work is exceptionally well-researched, well-documented and well-written. His arguments are both powerfully supported and rationally coherent. While his detailed, in-depth analyses of complex issues, and his introduction of numerous, abstruse concepts (such as emotivism, reconstructionism, selectivism and solipsism) might render the book more appropriate as a university textbook for use at the graduate, if not the undergraduate level, it nevertheless commends itself as an exceptional resource for those readers seeking a thorough, comprehensive,

and up-to-date reference in the field of Christian ethics. As arguably the most reasoned, comprehensive and authoritative, general text on Christian ethics to date, it speaks extensively to the world's current state of rampant and callous depravity. Thus it deserves a prominent place in the library of every serious student of Christian ethics, apologetics or theology.

This book on "Christian Apologetics" by Norman L. Geisler is an excellent book that challenges you as a strong Christian believer (God elect) in biblical scripture against other worldwide faiths. I highly recommend it for those like myself that are going through seminary and pursuing a life in ministry. (Service to God)

I'm about halfway through reading this book and although it does mention some terms that are new to me, I have found this book to be very useful to me in framing my personal "Apologetics" within a philosophical framework.

This is like a divinity school text book. I read a lot and this is still a difficult read. No buzzing through this.

If you want to discover apologetics start here with an understandable yet detailed account from the expert's expert on the topic.

Very detailed very informative. Gives good reasons why other world views cannot be true and why Christianity is true. A little dry.
