Anatomy Of The Heavens: God's Message In The Stars

Synopsis

Constellations: No one disputes their celestial glory -dazzling, dramatic, and perhaps somehow meaningful. But how? What is it about the 12 major constellations in our night sky that has captivated almost everyone throughout history from ancient stargazers searching the skies with naked eyes to modern astronomers scanning the stars through incredibly powerful telescopes. There are those who claim the stars give each of us personal information based on the date of our birth. But we know better, of course. Are the positioning of the stars entirely random? If so, why do they tell such a powerful story? Is anything in God's universe truly random? Is He not a God of order, with an immense desire to teach us and reach us through every possible aspect of His creation? Study the heavens with a biblical perspective and learn the real message God has written in the stars.

Anatomy of the Heavens: God's Message in the Stars
In the clearest and simplest of terms, author John Klein tells the story of God's plan for his people. For far too long most of mainstream Christianity has been misled as to the importance and significance of the Hebrew Scriptures (Old Testament) and led to believe that since the death of Yeshua/Jesus, Believers live under a form of grace that relieves the Believer of all responsibility for living a righteous life. This has become known as "cheap grace" or "grace abuse". See the works of Mark Driscoll for more on this. Mr. Klein sets the record straight, using Scripture; God does not change so it is impossible that there have been created two sets of "rules" for living: one for the Jews and one for the Christians. All mankind must

live by the same set of rules issued by God/Yahveh to Moses on Mount Sinai. These commandments are not burdensome and you should not be turned off by the seemingly daunting number of 613; many-most--of that number do not apply to the common man/woman; they are for the priesthood and the management of the Temple (when one exists). When you understand this and then review the commandments, one by one, you quickly see that, if you are an authentic Christian you are already keeping most of these commandments. The reason I feel this book is so important for Christians to read today is that the end times are quite near--yes, yes man has been claiming that for thousands of years, but just look around at the world and judge for yourself. Does not our own country deserve the wrath of God for our corporate sinful behavior? I think yes. Because Christianity is so divorced from the Hebrew Scriptures most are unaware of what life will be like when Yeshua returns to earth to rule as our King for 1,000 years. While we don't know all the details of His reign we do know a lot--much of it contained in the book of Ezekiel, Chapters 40-48. Animal sacrifices will be resumed; mankind will be required to come to Jerusalem at least once a year to honor Yahveh (if they don't, rain will be withheld from their country for the coming year). The Millennial Kingdom world is not "Heaven". It is not even the "New Earth". It is this earth that we have now but it will probably be in a very damaged condition because of Yahveh's wrath being poured out on the land. Maybe you think that you will escape all that through the Rapture. You are wrong, very wrong. If you are now justified and become glorified with the Second Coming and the resurrection you will have witnessed much, if not all, of the Great Tribulation. But you will have been protected! When the dust settles and Jesus takes his throne in Jerusalem there will still be nations and kingdoms on the earth. People will still live in places where they live now. It will be their job, together with Christ, to restore the land and assist in the government of all the earth. That government will be under the Constitution known as Torah and it will apply to all mankind and will be enforced with an iron hand. I suggest to you, that the better you understand these things the easier will be your transition to live in the Millennium. If you make it. You might not. In spite of what you now think, you might not be saved/justified. That is why Mr. Klein's book is so important to you. It is not too late for you to learn the true way of righteous living, it is still not too late for you to be part of the Bride of Christ, or at least a member of the wedding party. You do not want to be among the vast throng who stand before the King and hear him say, "Depart from me, I never knew you". But why has the Church so misled you? Did not Yeshua (and Paul) warn that the Devil would enter into the church and plant seeds of destruction? This destruction has been going on for two thousand years. The theological seminaries in this country and around the world are no longer, for the most part, working on behalf of Yahveh, they are working on behalf of Satan. Don't forget: this world

belongs to satan "for a little while", that is why our lives seem so hard. Buck up, Christen! Take hold of your own Salvation. Ensure it is True Salvation and not false. Come to know the intent of all Scripture as breathed by God himself for our instruction so we can become holy as he commanded up: "Be holy because I am holy." Anatomy of the Heavens: God's Message in the Stars can help you become holy, truly holy.

I don't see the full pictures in the sky, but it is amazing to read the insights of ancient stargazers in widespread parts of the world and in various times and how they confirm God's book and design of the universe.

I am still reading, and every page read is a blessing. I come to the conclusion that God is Mighty and Merciful. since the beginning of time He planned to rescue humanity. I strongly suggest to purchase and read this book; who would write better than a Jew. John Klein smashes the content in order to give us the " bottle " to drink the content of this amazing book.

A great read. Well written and researched explanation of the genuine and original purpose of the zodiacs. Well worth the price and the information.

An absolute must for anyone interested in the real idea of the Star Groups. An eye-opener as is the whole series.

Ground breaking information on the heavens.

Fascinating.
