Praying Through Cancer: Set Your Heart Free From Fear: A 90-Day Devotional For Women

Synopsis

“ You don’t have to face cancer alone Traumatized and terrified of cancer? Perhaps you have been diagnosed yourself, or you have a friend or family member who is battling with the disease. You know you must face it ”but you do not have to face it alone. Praying Through Cancer is a collection of stories by women who have faced cancer and, with triumphant spirits, found comfort and sometimes even joy in the midst of it. For these women, cancer was a comma, not a period, in the sentences of their lives. Why? Because they put their faith in the Lord and He strengthened them beyond comprehension. You will laugh and you will cry, but best of all, you will know . . . you are not alone. ”

Customer Reviews

I am a 37 year old that has just been diagnosed with breast cancer. A good friend of mine found this book and gave it to me. I can't begin to tell you how comforted I feel while reading through these pages. God is speaking to me through these words and whispering that He is right here with me on this journey. I still have my moments when I feel scared, but when they hit, I reach for "Praying Though Cancer" and in moments I feel His presence and all of the comforting words of women who have been through this before me. God Bless you for such a beautiful book!

I am a 64 year woman old in the middle of chemotherapy treatment for lymphoma. A dear friend gave me this book... he just "happened" to be walking in the woman's section of his church's

bookstore and saw it there and thought of me. I have gone through the book of short but deep devotionals once and am starting again. It has been so comforting and encouraging; really speaking to my heart. There is something for me to relate to on just about each and every page. I guess you really can't know unless you've been there and I am so thankful that these many women who have "been there," chose to share their prayers and stories to encourage the rest of us. In fact, I received two of these books as gifts and am looking for the right person to give the extra copy to. Thanks to these writers and to the LORD for inspiring them and us.

I am 47 yrs old and was diagnosed with a brain tumor almost two years ago. I just found this book about a month ago and have appreciated every story, prayer and thought. I have found myself in most, if not all, of the moments described and have come to many of the same places as all of these women. My one regret is that I didn't discover this sooner. I will give this book to everyone who finds themselves in these circumstances, whether they experience it themselves or through someone they love. The book is diverse, relevant, to the point and insightful.

This book is a definite inspiration for any cancer patient, especially new ones. When my wife was diagnosed, someone gave her a copy, and it was a great comfort and blessing for her. Now, every time she learns of someone diagnosed with cancer, she gifts them a Cancer Awareness bracelet (which she makes) and a copy of this book. Only knows how many copies she has purchased and I am sure there will be more to come.

I was given this book after my diagnosis. It helped me beyond words. I have since given this book to many others in need. I can not imagine going through cancer treatment without this book!

The darkest time of an otherwise very happy life was made lighter through reading this book. I never knew how to trust in something I was unsure of but I saw God as so real and so present through this book. Thanks for sharing your hearts, your journeys and your faith.

Praying Through Cancer totally changed my life. This book is powerful, but simple. When people are going thru cancer treatment their brain is overwhelmed with "stuff." This powerful book prioritizes this "stuff" and makes the journey very amazing. I bought books and shared them with other cancer survivors and they were all equally moved by the power of this book. Highly recommended!

My wife, asked her friend, who has cancer. "What has helped you"? She told her about this book. We have given this to others with cancer and they all say it has helped their heart be set free from fear. If you know anyone who has cancer, this is the book to get.
