Customer Reviews

Blanche has taken the worry and confusion out of using the Internet to buy and sell a home with her down to earth and common sense approach. Home owners and prospective buyers alike will find a selective amount of resources, websites, and information Blanche has reviewed to make this book a must have for any homeowner or Real Estate Agent. This book is going to help shape the Real Estate Market into a new level of knowledge and understanding.

Ms. Evans has scored big with this phenomenal book. As a Realtor who does the majority of my business off the Internet, I am going to enthusiastically recommend this guide to all of my Internet clients. There is great information contained on every page... info that every person potentially

looking to relocate should gather and digest. Somewhat selfishly, I must say that Ms. Evans does do a good job crediting Realtors, unlike most books which portray ALL agents as salespeople "just out for the sale". She emphasizes that people SHOULD select a Real Estate Consultant to assist in the home search and relocation process. Kudos to Ms. Evans for writing a book that consumers AND their Realtors can read and appreciate!

Ms. Evans has written one of the most up to date books on real estate with such great clarity and style. The book provides an insider's look into how the real estate industry works not yesterday BUT TODAY. It shows you how to use the Internet to your advantage. If you not using the Internet in the home buying process and have not bought this book you have missed the boat!...
