This book is not an ordinary book. This man, Rick Joyner has been given a divine word from Jesus Himself to go to the world and show us truth. Rick was taken in the Spirit to fight within the spirit (Literally). He then went to heaven where he met several people of the faith including The Apostle Paul who is now a King in the divine order. It (The Book) makes one to see the essence of our very own existence. I have tried to persuade everyone I can to read this. But I know the book is true because it lines up perfectly with Scripture. The beginning has an emphasis on the fruits of the Spirit, our weapons etc. Jesus spoke to Rick Joyner in PERSON, and gave him a word to you and me. The emphasis is on humility, love, faithfulness and purity of intent. According to the great Christian writer who took much pride in his works, now in heaven, "Seek the Glory of the Savior Alone; anything other than that can take you off the path of life" [paraphrase]. Please do not fail to get the Words of The Lord. God bless you as you read it. I happen to have experienced a couple of those spiritual "Electric shocks that seemed like fire", and I testify that this book is real, faithful and true. One can write excessive volumes to elaborate on every single line; Obviously it is not the wisdom of Joyner that could have enabled him to write all that wisdom in such a short piece. Now I really want to preach the gospel and I hop the good Lord will call me wherever he wants me to go.

I must admit to being leary of anything that smacks of "this present weirdness" in Christian literature. Whether I agree with all of the author's doctrine is not the issue. The truth of the message comes through loud and clear, and this book will challenge you to your very core as a Believer. It is a book about living in these Last Days, about discerning the true from the false, about religious activity versus living a life that will bring glory to God. It is a wake up call for all Christians.

Rick Joyner's sequel to *The Final Quest* will reach deep into your heart with a divine understanding of God's will for His Church in these last days. The author takes us on a riveting journey into the ever surprising realms of the Spirit. The truths he learns along the way illumine Scripture and reveal the glorious destiny of the Church, both individually and corporately. This book is a treasure chest of godly wisdom and revelation that you'll want to dip into again and again!

I am reading the book "The Vision" for the 9th time, and am still learning. After a few chapters it became obvious that this was not written by human intelligence, but a divinely inspired vision. Here is how the book has changed me...1. It exposed many flaws in my Christian walk, a supposedly mature believer.2. It radically increased my confidence and faith in God.3. It shot to pieces my faith in man and myself.4. It gave me a sobering look at who the enemy is, and what are his tactics.5. It gave me a perspective of the biblical truths that I couldn't find anywhere else. And has filled in many of the missing pieces of our Christian Faith. Now everything fits together and I have a new overall view of who God is, and His wonderful creation. I've come to the conclusion that without reading this book, many people will be unprepared for the things that are coming. A must read for the mature Christian. This work speaks to the inner man, reveals hidden sin and the grace and mercy of the Most High God. Words are very insignificant to express the impact this book has had in my life. If you are seeking a better understanding of the mind of Christ, this is a must read. This book is an adventure in the plan of God. Also recommended: *The Harvest* and *The Final Call* -- both by Rick Joyner

You may read a book and recommend it to others as "the best book I've read for a long time" and out of politeness they read the first two chapters, put it down and not share your same enthusiasm. Maybe it just wasn't the right time for them to read it. But for me reading this trilogy has been a gift from Heaven above. Others may wage in on the theological and doctrinal debates - whether these

writings are inspired or misleading. I am personally satisfied with its consistency and alignment with the scriptures (note: my personal opinion - so not open to debate). Each person must judge for themselves and weigh up from their own understanding of the scriptures and the nature and character of God. As for me - it is one of the most inspired works I have ever encountered. If an angel had descended from heaven and placed the book in my own hands - it wouldn't have added any more to the great encouragement that I have received through reading Rick Joyner's writings. As it turns out the angel delivered the book via Kindle - which works fine for me :-)
