My daughter loves the regular Flat Stanley books, although I had to read them to her since she was a beginning reader. It was a wonderful surprise to find the Flat Stanley readers. A fun topic makes reading so much more fun and enjoyable for a beginning reader. This one, about Flat Stanley playing on a baseball team, was a hit with her, and she doesn't even like baseball. In terms of level, these readers are easier than a DK reader.

My little boy is a big fan of the Flat Stanley books, and this was a great addition to his collection. He particularly loved that Stanley was playing baseball, since he loves tee-ball. The text was easy for him to read independently.

I love Flat Stanley adventures. This one about Stanley at bat was given to a grandson who loves baseball. What better way to get him to enjoy reading as to combine his love of baseball and fun Flat Stanley adventures together. A great book.

Great book to read with your child [don't have them sound out the words, just give it to them as the English language has so many rules] and then for them to read to you. Enjoy the adventures like we did.

This book is absolutely good. I became a fan of this series. even my daughter, who doesn't read, likes to sit with the book and look at the Great pictures. It's very appropriate for kids readers of six years and forward. My daughter and I enjoy to listen my 6 year child reading the book. There's a big difference when the kid likes what he is reading.

I had several students reading Flat Stanley books and they loved them! I did not notice that this was a "I can read" book. It was geared for beginning readers not for students who were reading chapter books.

I would rate it a five star for sure if my life depended on it. I recommend you read because it inspired me to play baseball and after I read it I hit three homeruns and I'm only nine. thank you flat Stanley.

As always, excellent service. Everything arrived on time and in perfect shape. Cost for shipping was an issue but since I am not in a hurry for my order I was able to get free shipping with a longer wait time, which is fine by me; thanks for offering this option.
