This book addresses the sin issues of life and how to break the spiritual attachments that came through life circumstances. One of the things, I struggle with is how I have been judged by those in the church because of health challenges; when I didn't recover completely, I got dissed. Few Christian books will address the church as a culprit in victimizing. Eddie Smith doesn't shy from that very politically incorrect statement. Here are some great words found on page 56-"... Western church the gradual development of a "Christian victimization" culture. Prior to that, believers largely considered life's ups and downs a reality to be expected while living on a sin-cursed planet. They understood that God even uses trouble as a tool to fashion us into the image of His Son. Have we forgotten Jesus' words?" "If the people of this world hate you, just remember they hated me first... While you are in the world, you will have to suffer... (John 15:18, 20-21; 16:33 CEV). "What's happened to us? The Western church as embraced pop-psychology's implication that the lack of

self-love, low self-esteem, difficulty paying attention, or any feelings of rejection are abnormal, they promise that everyone's life can be easily adjusted with enough counseling and medication."Unfortunately, many Christians in recent years have also embraced an unbiblical health-wealth theology built around the supremacy of human needs over divine purposes. Spewing from many of America's pulpits is the concept of a God in "our" image who exists to meet "our" needs and who when necessary, will set aside His purposes on a moment's notice to see that we are pain and problem-free. "This book will challenge you, he is truthful and direct.
