Loved this book. Rented it for my Theology/New Testament Gospels university class and am only

said I didn't get to keep it (too expensive). I enjoyed the material and learned a lot of new things I had no clue about. Would recommend to anyone interested in theology and specifically if learning about the Gospels.

This was a required text for a class and I couldn't have been more pleased. The unbiased account of facts with an all encompassing account of events at the time that the different books of the bible are thought to have been written gives the reader the tools for a more accurate interpretation of what was written.

I am using this book for a class, and it is terrible and nearly impossible to follow. I love studying religion, I have studied religion for 13 years and been known to be a top theologian. However, this book is boring and not at all good at getting the information across. Had it not been for this class, I would not recommend it to anyone.

This is an Extremely repeatative book and a very boring read. You can honestly get by just by reading every third page or every third sub-section (at most). If your worried you might miss some of the material doing that, go ahead and start reading every page. You'll see soon enough.

Why did I read this book? Because my professor required it. That being said, it was interesting material presented in an engaging way.

What I needed for class, good author.

no delays ,right on time delivery.great book, i recommend it all new testament students.

The book came in looking a total wreck but it did serve it's purpose.
