Customer Reviews

I love Disney, I love the movies, the characters and in most cases their books are well produced. We bought this to read to our 2.5 yr old son, so I am going to review this from three perspectives:
Charlie's Review (2.5 Yrs): He loves this book. He picks it EVERY bed time and mostly enjoys flipping through the pages to decide which story he most wants to read. For his age, some of the stories are too wordy or have too much dialog to hold his attention and he will occasionally get distracted, other stories he loves. He doesn't get to watch TV or Movies yet but he clearly loves the characters in this book, perhaps because we love them too.
Dad's Review (old enough): I love the art in this book, it is for the most part wonderful and better (IMHO) than most kids books. One or two of the stories are OK (Thumper, Mickey, Bambi), others are mediocre and some are just awful (Aladdin, Nemo). Compared to most of his other books reading these stories is a chore, my wife and I both give a silent sigh when he goes for it. Many of the stories carry little or no positive message.
Mom's Review: Would be happy if we never read from the book again. I am conflicted when

scoring this book, on the one hand he loves it and we have definitely got our money's worth, on the other hand many of the stories in this book seem like second rate filler compared to better books out there. I feel that I need to write this review because I don't see similar comments in other reviews so it seemed like a valid perspective. For comparison, we have loved the Gruffalo, The Snail and the Whale, Richard Scary's Best Storybook ever and frankly most of the other books in his library are more engaging than this.

GREAT Book at a GREAT price. I don't have any kids of my own but I have bought this to read to my nephews and for every baby shower I have been too. This book ALWAYS gets people excited and moms are always so happy to receive it. The quality of the binding, paper, and illustrations within is great and I always get messages from moms after the fact that they have been reading the book to their little ones and just love it!

A variety of short bedtime stories. Perfect for girls and boys. Features a couple princess, lion king, finding nemo, monsters inc, mickey mouse, winnie the pooh, 101 dalmatian, toy story, bambi and more

My toddler loves her "big book" and that is most important so she'd give this 5 stars if she knew how to type. The story lengths are good for toddler attention span and the graphics are very attractive. The storylines themselves are a little boring and do not appeal much to me as an adult. We have the Mickey Mouse version of these books as well and I enjoy the stories within that one better which is why I give this 4 stars. Otherwise the book came in good condition and is holding up well after a few months of reading/dropping/sitting on that toddlers do. Because of how often my child requests to be read from this book I'd opt to buy it again if I had to.

It's okay for my boy..I know no book can ever be childproof, but he didn't even had to treat this book harsh before the pages came out!, I bought 3 children's books at the same time, this is the only one that had pages loose the first time he read them!!, he's read the other ones at least 5 times and pages are still stuck to the book!of course I'm still teaching him to turn the pages delicately...The stories teach little to no values, it's just random boring stories but with disney characters, of course I've only read the first 4 stories, because they bored meBut my boy seems to enjoy seeing Woody and buzz on a book, so I guess it's okay for them...ldk.. I've always thought children's stories must have values in them, or something to teach to them!

My daughter wanted this book for Christmas last year and I ended up getting it for her for her birthday this year. She loves it!! It keeps her guessing as to what story we will read next! And the stories aren't too long. They take about 5 minutes to read and that's about the right length of time for a bedtime story.
