My boys 7 and 9, who are not big readers, LOVE this series. We use these books for our read aloud time (parents read to kids). They beg me to read more. My 9 year old could read the series himself. My 9 year old only liked non-fiction until this series. The stories are unexpected. The series is not for

those who are cautious with the word "hate". A.J., the main character, hates a lot of things, but the unusual story perspective really is a winner in my house. You might find it helpful to know that this author has 2 other series, specials, and a future series with the same characters. I was confused when I ordered this set compared to the 21 book set. I didn't realize they were different series with the same characters. For the record, I will be purchasing all the books in the following series for my kids. My Weird School (21 books -- set is available on) My Weird School Daze (12 books -- the set I'm writing the review for) My Weirder School (12 books -- the books are currently available individually on but not as a set) My Weird School Special (a few books about holidays, some are yet to be published, I don't think this is a series name) My Weirdest School (set to start being released in 2015 according to Wiki)

my six year old boys are enjoying this book very much. it is more age appropriate for a 3rd grader. the book uses words like shut up, dumb, stupid, etc. which my six year olds are not accustomed to hearing. i just explain to them that these are not bad words per se. they are words our family chooses not to use. otherwise, the story line is fun and the kid humor, homonyms and homophones are well used.

My 6-yr old daughter absolutely loves these books. She just giggles and giggles all the way through them. She even quotes them when we are out and talks about what the characters would think or do in different situations. Great "sneaky" educational books! :)

I really am surprised that the great reviews. I don't think the language or subject material is exactly appropriate for under 10 year olds. There is a lot of name calling (kid to kid) in the book. "Boys hate girls" and "girls are goody goody".. seems to be the stereotyping. The stories themselves are good and funny, but i really wish the language was more appropriate, I wouldn't want my kids to learn that calling another kid "dumb face" is appropriate or funny in any way or that its ok to call someone "[Neil] the nude kid". Returning.

If I could give this series 0 stars, I would. As a parent of 3 and a clinical psychologist who works with children, I was disgusted at the content that glorifies hating school, disrespect of others, bullying, talking back, laziness, sneakiness, and insulting others. Adults are portrayed as disrespectful toward each other, with one parent rolling her eyes at the Principal when he talks about taking care of the planet. Words like "crappy," "hate," "dumb," and "stupid" are common. Not-so-vague

references to aggression and threatening behavior are common, including assassinating a PTA president, slapping a teacher who fainted, and two parents get in a fight, rolling around on the floor and pulling each other's hair. All of this is in the first book alone. There are better books out there for young readers. In fact, it would be hard to find a worse book series. It's too late for me to return it, but I refuse to even send it to the thrift store as I would not want any child to read it. This series is going in the shredder. The author needs to take a good look at the messages he is sending young children. Very disappointing, and a huge waste of \$45.

When I bought these I had not looked into the content before hand. The main character hates school and put the teachers down. In fact it seems that the students are smarter than the teachers and the teachers look like tyrants and buffoons. I noticed a change in behavior with my nine-year-old after he began reading these books. He became very smart-aleck with me and would talk back to me. It came out of nowhere. Then my 10 year old and 13 year old pointed out the theme of these books and how my nine year old would not read any anything else and would read them over and over. He even got an attitude with his brothers! So, out with the books! Save your money. If your kids really need to read them check them out at the library, but I would suggest reading one first before your kids do. Some people may not agree, but books, music, and media played a big role in shaping our children's minds and attitudes. It's important to know what your children are reading, listening to and watching because it affects them more than you think.

I bought these books for my friends children for Christmas. I read the reviews and they were all over the top. Well, the reviews were right on. The children 6 and 8 years old just loved them. Their mother said it was the best present of all. They read the books out loud and both the children and their parents just laugh and laugh. I would highly recommend these books.

Returned them after reading through the first pages. I bought these for my students and couldn't use them because it talks about how much he hates school and used the word hell in it... So many better books out there!
