A Child's Introduction To Natural History: The Story Of Our Living Earth From Amazing Animals And Plants To Fascinating Fossils And Gems

Synopsis

In the tradition of Black Dog's best-selling Child's Introduction books, which include *The Story of the Orchestra* and *A Child's Introduction to the Night Sky*, *A Child's Introduction to Natural History* introduces readers ages 8 to 12 to the fascinating wonders of our natural world. Highlighting every kingdom of life--plants, bacteria, mammals, birds, amphibians, insects, rocks and minerals--the book is also full of charming and witty illustrations by Meredith Hamilton plus 30 photographs throughout. The book delves into topics like geology; prehistoric times, including fossils and dinosaurs; how animals move and fly; evolution; biomes; and more. Sidebars throughout offer biographies of naturalists like Charles Darwin, Mary Anning, and Charles Henry Turner. Also includes fun, hands-on projects for kids to do on their own or with adults and 5 origami patterns to create your own paper fox, whale, penguin, and more. Beautifully illustrated and designed, this is an entertaining and educational look at our natural history.

Book Information

Hardcover: 96 pages

Publisher: Black Dog & Leventhal; unabridged edition (June 14, 2016)

Language: English

ISBN-10: 0316311367

ISBN-13: 978-0316311366

Product Dimensions: 10.2 x 0.6 x 10.2 inches
