It doesn't matter how old you are because the book is Awesome along with the movie!!!:) 50 years is a longtime!!!:)

A classic tale of Rudolph. 50th anniversary of this classic holiday Reindeer. A special pop- up

edition. Everyone loves Rudolph. Vivid pictures, with beautiful pop-ups. What a delight for a new generation of Rudolph the Red Nosed Reindeer fans. The scenes literally pop off the pages of this classic tale. Masterfully done. Any child age 3 and up will be delighted with this pop up book. A treasure to be sure. This is a book version of the movie which is a classic. While it's large and colorful, the pop-up sections are on thinner paper. That could be a problem and prone to bending or tearing by little hands. Had those sections been thicker, it would have received a 5 star rating instead. My granddaughters, though, really enjoyed the book.

I bought several pop-up books for my grandson at Christmas. This book is beautifully done. The cardboard is sturdy and will hold up and the colors are bright. We love this version of the story and it will be around forever.

Big fan of show (can it really be 50 years old?) - this pop-up book is faithful to it and very well done. Plan to buy copies for other family members.

Just in time for the holidays this must have book will introduce a whole new generation to a classic story that has been around for 50 years. This story first manifested itself as a famous holiday television special in 1964. It was created in stop motion animation and every year since has been featured at Christmas time to the delight of both kids and parents. This book will carry on the timeless tale in pop-up form so it can be enjoyed all year round. These large-scale pop-ups were created using actual images from the original television special making the book both beautiful and fun to read. Rudolph travels to the North Pole and engages in the reindeer games only to be teased and mocked because of his shiny nose. Humiliated and sad he wanders off and meets Hermey the Elf, who is feeling exactly the same way. He doesn't want to make toys like the other elves but aspires to become a dentist. Together they team up and look for a place where they will fit. Along the way they encounter a prospector named Yukon Cornelius and the scary Abominable Snow Monster. The three oddities end up on the Island of Misfit Toys and discover they are not alone in their feelings of isolation and non-acceptance. The story does have a happy ending for everyone involved and Rudolph's nose is the very beacon of light that Santa needs to guide his sleigh on that foggy Christmas Eve making him a super hero to all. The moral of the story is that we are all

different, have value, worth, and purpose. We must accept and celebrate our individual uniqueness because that's what makes a very interesting, diverse and yes, amazi

The book is beautiful but, unfortunately, the last page would not open properly and I returned it. I didn't reorder the book because I thought the pop-up on the last page might be a problem.

great pop up book but some of the pop ups don't pop up its a beautiful book though and I am not going to return it but I also find that the quality of the paper for the pages not that great
